

Fujinon C-Mount 8-80mm Lens

DV10X8SR4A-SA1L

Fujinon C-Mount 8-80mm Lens

KEY FEATURES

- 8-80mm Focal Length with 10x Zoom
- Compatible with C-Mount Cameras

Compatible with 1/2", 1/3", and 1/4" Panasonic cameras, the C-Mount 8-80mm Varifocal Lens from Fujinon can be used with up to 3MP resolutions for capturing high-definition images. The lens' 8-80mm focal length produces a 10x zoom for use with wide and tele applications, enabling you to use the lens in a variety of scenarios.
